# IGLAND DS 600 Sand spreader

## Product description

IGLAND DS 600 are a self-loading sand spreader. Can be fitted on a front loader or on the rear of the tractor. IGLAND offers DS 600 as suitable for small and medium-sized tractors. The sand spreader has a hydraulic driven mixer which ensures that clumps in the sand will be crushed before output. DS 600 spreads in 1,5 metre width. Base machine is without attachment.
